

MOUNTING RAIL KIT

Installation Accessories for Rackmount UPS Systems, 1-10 KVA

Description

The NETCON Rack Mount Rail Kit is a versatile and essential accessory for mounting heavy equipment, such as servers, UPS systems, network switches, and storage devices, into a standard 19-inch server rack or network cabinet. It provides support, stability, and ease of access for mounted devices, ensuring proper alignment, safety, and convenience during maintenance.. The kit includes mounting hardware compatible with square-hole racks. Supports up to 500 pounds (150 kilograms)

Installation Accessories for Rackmount UPS Systems, 1-10 KVA

An adjustable rackmount shelf system that supports heavy UPS systems rackmount applications
