Electrical

Voltage 230V Nominal

Current 16A Max

Connections

Mains Input 1x IEC320 C20

UPS Input 1x IEC320 C19

UPS Output 1x IEC320 C20

Output (PDU) 1x IEC320 C19
6x IEC320 C13

Physical

Dimensions 440 x 180 x 60 mm (1.4U)

Weight 2.15 kg

Maintenance Bypass Switch

ION's 1RU Rackmount Bypass Switch is the perfect way to enable real time live bypassing of your UPS system without causing any interruption to IT equipment or a connected load. Using the rotary switch, anybody can transfer equipment load from the UPS to mains supply. The ION Rackmount Bypass Switch enables maintenance to be undertaken on a UPS system during business hours and provides a backup option to quickly restore power to equipment if the UPS fails. ION's Rackmount Bypass Switch delivers cost effective reliable redundancy to your IT infrastructure's power supply.

FEATURES

- Compact 1U Rackmount design
- LED status indicator
- Metal housing
- Cable retaining clip
- Multiple mounting options
- Rack ears included
- Compatible with UPS up to 3kVA
